

+ PRODUCT INTRODUCTION

PDF Web Viewer

# StreamDocs

Most people are familiar with streaming audio and video files to their browsers and apps.

Some people, like me for instance, are streaming music all day long and then watching Netflix all evening; we're always streaming.

Because you can start listening or watching immediately, streaming is the best way to experience web content that tends to be stored as large files on the server.

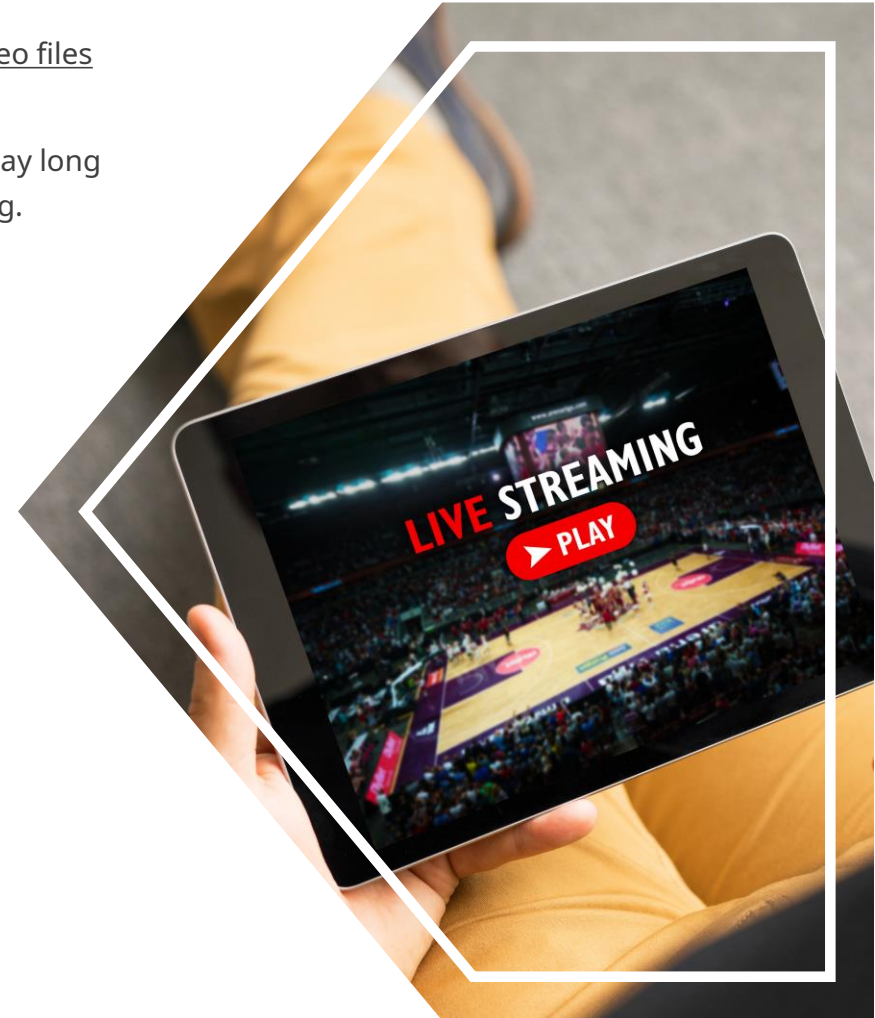

But now, you can ***stream PDF files*** too.

### Secure viewing

- The original document was not downloaded directly, so copies are not saved on your device.
- By dividing document into lots of pieces of images like puzzles, to prevent the risk of leaking original document.

### Efficient network resource management

- Stream only the current page for quick viewing
- Cut bandwidth costs with on-demand page streaming.
- You don't have to wait until download the whole document.

Most Powerful PDF Web Viewer

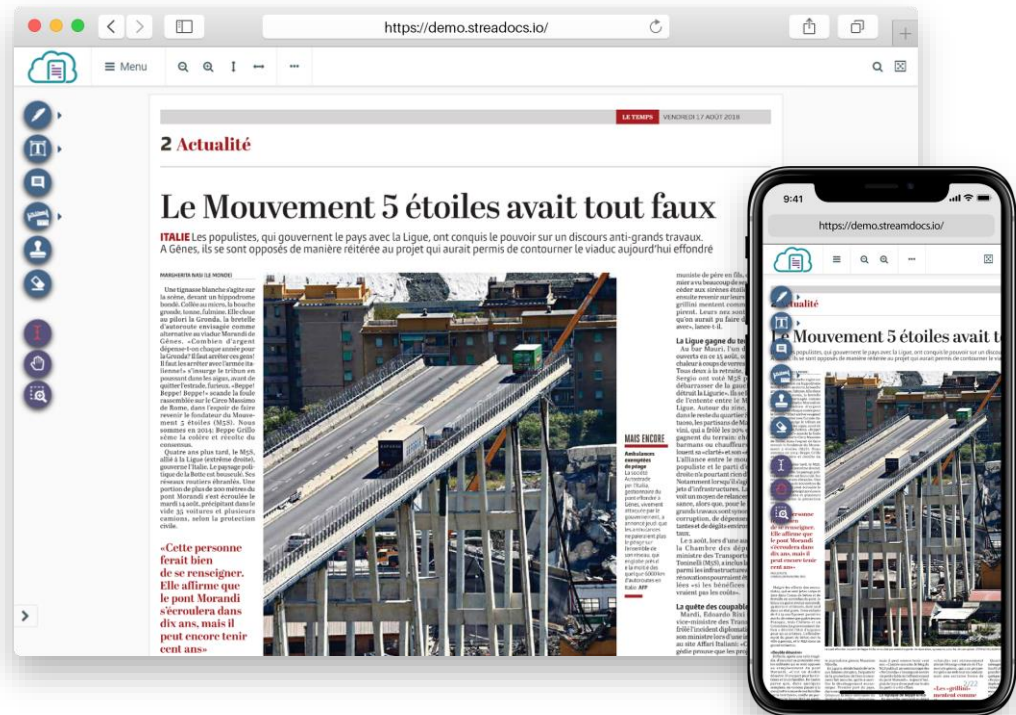

# StreamDocs

View, edit, etc. all PDF actions on the web.

Doesn't matter which device you're looking at.

Use PDF, MS Office, Image on any device.

# Why StreamDocs

Most Powerful PDF Web Viewer

## Powerful Features

A fast and accurate viewing experience, blackmarker, support load balancing, form/signature, and annotations, etc.

## Efficient Network Utilization

Streaming in real-time instead of downloading documents to save network resources and provide high security

## StreamDocs REST API

Using the REST API to support multiplatform and easy interlocking

Provides standard API to support PDF documents file storage

# Features

## Import PDF data

Extract XML about annotation work history.  
Import bookmarks and attachments included in PDF.

## Document format

PDF, MS Office, Image to StreamDocs  
For MS Office document, conversion to PDF first with our program.

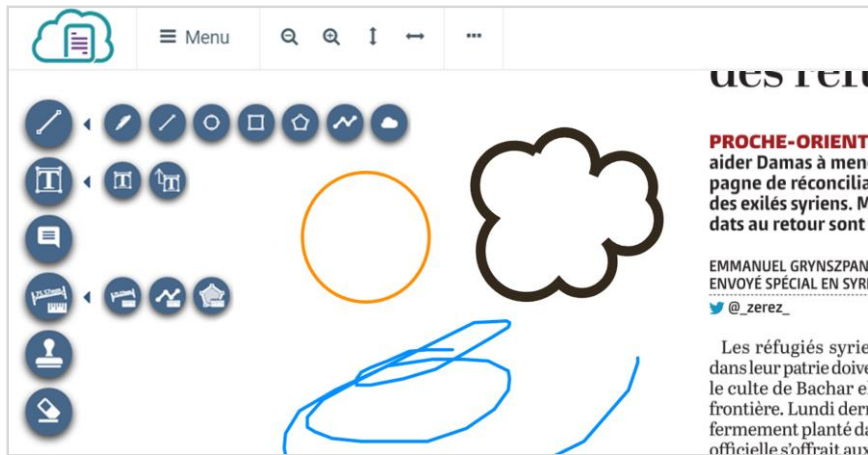

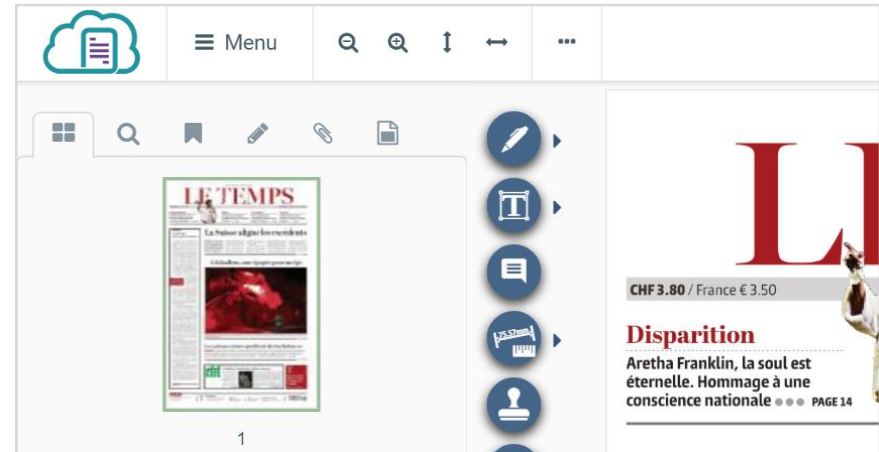

## Cross-platform

Optimized for a great experience across mobile, tablet, and desktop.  
All modern browsers, including IE 11, are supported.

## Navigation bar

Choose from three sidebar options – thumbnails, search (match case), outline, annotations, or attachment taps. Support text highlighted search, managing annotations, import files, etc.

## Edit tools

Pen (line, circle, outline, etc.), Text (Text, Callout), Sticky note, Distance, Stamp, Eraser tool

## Text Annotation

Add text anywhere on a document. Move and resize, and change appearance — including size, transparent, and color.

## Note Annotation

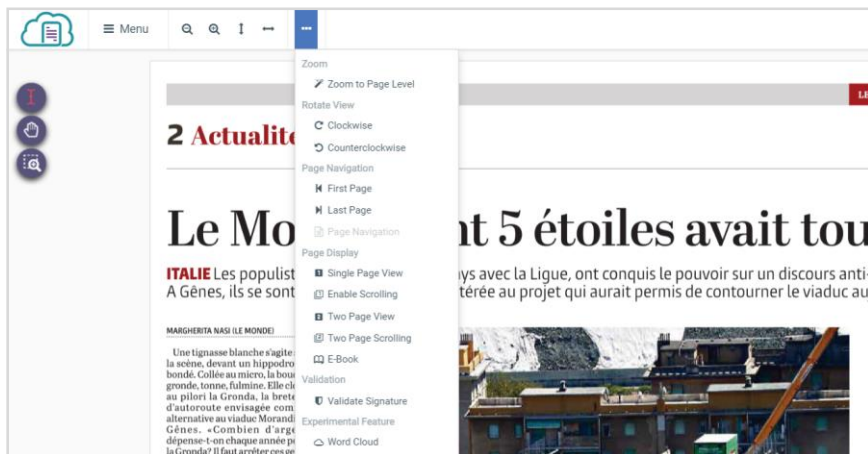

Add longer comments, which can be collapsed or expanded, to a document. Change appearance with a variety of shapes and colors.

## Collaborate and Share

When teams collaborate and share information, they work at their best. StreamDocs links knowledge workers together to increase flexibility and results.

Let users annotate & exchange messages in real-time across devices and platforms.

## Page View Control

Standard & Custom page viewing modes (e.g. single, double, e-book, fit-page, fit-width, etc.)

Core viewing operations (text select / scroll / zoom in/out modes)

## Unlimited Zoom Level

StreamDocs converts your PDFs into true HTML5 elements, keeping the fonts look greate at any zoom level or size.

The converted publication show up instantly on any device and screen with maximum sharpness.

## e-book Mode

Wanna to feel the emotion of actual book?

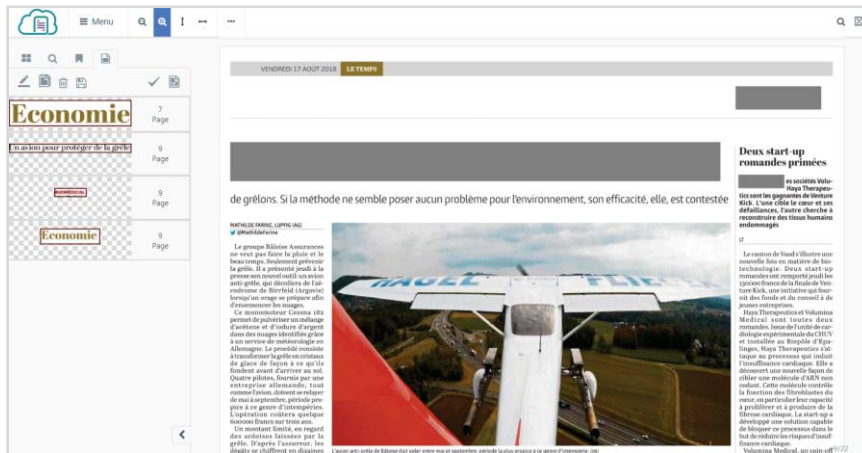

StreamDocs shows a PDF as a flipbook with realistic 3D page flip effects.

## Form/Signature

View, fill out, and submit forms easy

Support digital signature with legal effect & PDF forms

## BlackMarker

Wanna to delete specific information such as privacy?

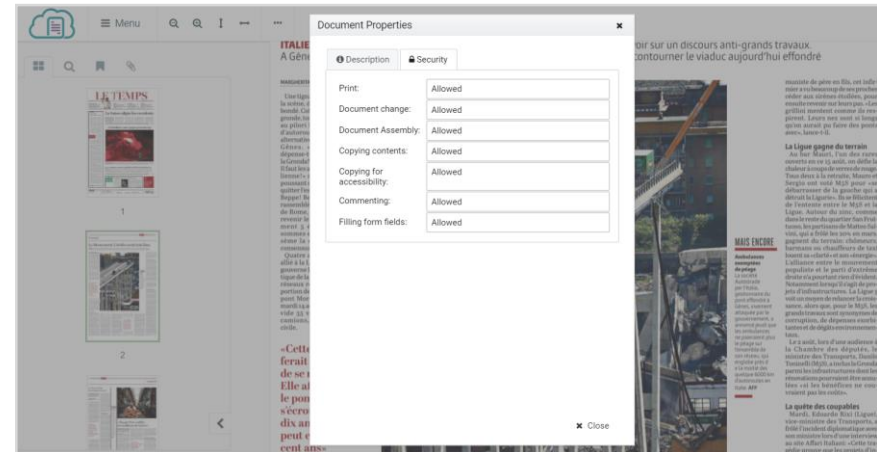

Just use blackmarker! You can delete and blind all related data by searching for text (support regular expressions) or specifying areas.

## Security settings

Select allow or disallow security settings on PDF documents. (Document change, Copying contents, Print, Filling form fields, etc.)

Dynamic watermarks options (Screen only, Print only, both), AES 256 support.

## Convenient Features

Support gesture function to allow your visitors to interact with your documents on their device

Extract metadata information in document (e.g. annotation, properties, etc.)

Support document minimap

## DAP Function

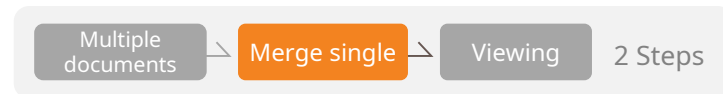

Want to merge and view multiple PDFs at the same time?

Just a piece of cake, DAP requires only one step to view merged document!

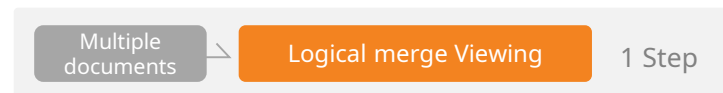

DAP (Document Assembly Package) is a function that makes multiple PDF files look like one PDF file. Use PDF Document Assembly to logically merge PDF files, not actually merge them.

- ✓ Increased viewing speed
- ✓ Reduce storage costs
- ✓ Insert watermark at once

### Original system

### Use DAP

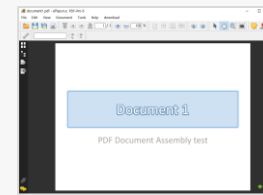

Name	Date modified	Type	Size
document.pdf	2012-06-12 PM	Portable Docume...	1KB
document1	2012-02-20 PM	Portable Docume...	747KB
document2	2008-01-18 PM	Portable Docume...	31,712KB
document3	2012-03-15 PM	Portable Docume...	3,908KB

Each PDF file stored on the server

PDF Document Assembly Sample file

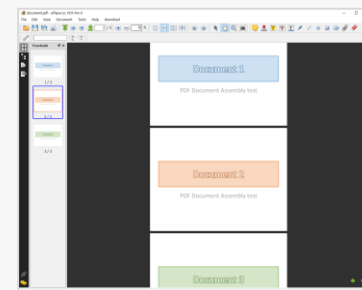

document1.pdf

document2.pdf

document3.pdf

### Viewing Document

1. Merge three PDF files into one document
2. Insert watermarks in all documents

# System requirements

Software operating system		
S/W Language		Server. Java (JDK 5.0 or higher)
OS		Windows, Unix, Linux
WAS		WebLogic, Web Sphere, Jeus, Tomcat, JBoss
Platform	Server	Windows, AIX, Red Hat Enterprise, Linux
	Client	IE 9.0 or higher, Firefox 3.0 or higher, Chrome 6.0 or higher
Minimum system requirements		
Processor		Intel® Pentium® 4 or AMD x86 or AMDx86/64, 1 GHZ Processor
RAM		1 gigabyte(GB) for 32bit or 2GB for 64bit
Hard disk space		16 GB
Recommended system requirements		
Processor		Intel® Pentium® 4 or AMD x86 or AMDx86/64, 2 GHZ Processor
RAM		2 gigabyte(GB) for 32bit or 4GB for 64bit
Hard disk space		80 GB or higher
